Autoclaves

A · https://fo.umich.edu/fosg/autoclaves/

Facilities & Operations is responsible for the ongoing maintenance and repair of the utility systems delivering electricity, steam and water to autoclaves, but does not maintain or service the autoclaves themselves. Service on these devices must be obtained from a vendor at customer expense. Contact Procurement Services to arrange for this service. Please note that departments are responsible for cleaning and decontaminating the equipment before it is serviced.

All connections to building utility systems must be coordinated through the Facilities Service Center at 647-2059. This work is performed at customer expense.
