Manhole Covers

M · https://fo.umich.edu/fosg/manhole-covers/

Broken or missing manhole covers should be immediately reported to the Facilities Service Center (FSC). To effectively respond to these concerns, the FSC will need as much information as possible about the location and type of service contained in the manhole. If the manhole cover is not missing, please provide the FSC any name that is cast on the manhole cover, such as: Water, Electric, Sewer, DTE, City of Ann Arbor, etc. Also provide the exact location of the manhole including nearest cross street, whether it is in the street, sidewalk, curb, lawn, etc.

To report problems with a manhole cover, contact the Facilities Service Center at 647-2059.
