Sharpening Services

S · https://fo.umich.edu/fosg/sharpening-services/

The Maintenance Services Sheetmetal Shop has the equipment to sharpen various types of devices (paper cutters, knives, scissors, etc.). However, the cost of having this work performed may exceed the cost of the device. Departments may find that an outside vendor can provide this service more economically.

One vendor used by various U-M departments is Hayes Grinding Service. They can be contacted at 313-259-3333.

To engage the Sheetmetal Shop for sharpening needs, call the Facilities Service Center at 734-647-2059 or visit requests.fo.umich.edu.
