Sidewalks

S · https://fo.umich.edu/fosg/sidewalks/

Grounds Services is funded to apply cold patch to reduce tripping hazards to sidewalks in general fund areas. AEC performs regular checks of sidewalks to verify the condition of the campus sidewalks. When sidewalk conditions have degraded to the point where they require major repair, or replacement, AEC identifies funding sources as a capital project.

To request service, call the Facilities Service Center at 734-647-2059 or visit requests.fo.umich.edu.

Sidewalk replacement and the installation of new sidewalks are typically handled by the AEC University Planner's Office. Call 764-3414 for these projects.
