Weeds

W · https://fo.umich.edu/fosg/weeds/

Weeds in flower and planting beds are usually removed during normal grounds maintenance. Grounds Services will address concerns about weeds growing around buildings and entrances when notified.

Weeds observed growing from gutters and other unusual building locations should be reported to Facilities & Operations.

To request service, call the Facilities Service Center at 734-647-2059 or visit requests.fo.umich.edu.
